

ELICIA YE

UC Berkeley EECS M.S. Graduate Student,
Computer Science and Math Undergraduate

@ eliciaye@berkeley.edu ☎ +1(408)966-3060 📍 SF Bay Area

EXPERIENCE

Machine Learning Software Engineer Intern

Facebook, Inc.

📅 May – August 2021 📍 Menlo Park, CA

- Designed and completed independent machine learning project, built infrastructure for model research and development.
- Reached team H2 goals by improving ad delivery efficiency and efficacy in production for Signals Intelligence.

Software Development Engineer Intern

Amazon.com, Inc.

📅 May – August 2020 📍 Seattle, WA

- Decreasing user-facing data unavailability by 50 percent in production.
- Deployed and integrated AWS infrastructure (S3, DynamoDB, CloudFront, Redshift) to efficiently configure data and parallelize forecasting tasks.

RISELab Undergraduate Researcher

Professor Kannan Ramchandran, Yaoqing Yang, EECS

📅 Sep 2020 – present 📍 Berkeley, CA

- Develop and optimize network compression algorithms in deep learning using statistical and machine learning methodologies.

CS170 Undergraduate Student Instructor

Department of EECS, UC Berkeley

📅 Jan 2020 – present 📍 Berkeley, CA

- Instruct weekly sections and host office hours to reinforce core concepts taught in upper vision CS theory (e.g. dynamic/linear programming, greedy, FFT, duality, NP-completeness, etc.).
- Head Pedagogy: develop enrichment content (lecture, textbook, discussion), build professor/staff-student rapport, and facilitate growth of the course.

Natural Language Processing (NLP) Research

Professor Marti Hearst and John Canny, Philippe Laban

📅 Jan – June 2021 📍 Berkeley, CA

- Prototype an interactive podcast interface (supports user Q/A) that automates news summary generation by applying NLP methods to a dataset of 7M+ news articles.

CS61B Course Coordinator

Computer Science Mentor

📅 Jan 2019 – May 2021 📍 Berkeley, CA

- Built infrastructure to teach and mentor up to 2000 students per semester in EECS courses. Integrated department-approved content and pedagogical programs.
- Organized and implemented diversity, equity and inclusion initiatives.

EDUCATION

University of California, Berkeley

Electrical Engineering and Computer Science (EECS), M.S.

📅 Expected May 2023

Computer Science, Mathematics, French

📅 B.A. May 2022

- Cumulative GPA: **3.94/4.00**, CS GPA: 3.95
- EECS Honors Program
- The Leadership Award ([Cal Alumni Assoc.](#))
- [Upsilon Pi Epsilon](#) (CS honor society)

PUBLICATIONS

- Philippe Laban, E. Ye, John Canny, Marti Hearst. "[NewsPod: Automatic and Interactive News Podcasts](#)". 2022. [ACM Conference on Intelligent User Interfaces](#).
- Alex Zhao, Yaoqing Yang, Elicia Ye, Kurt Keutzer, Joseph E. Gonzalez, Kannan Ramchandran, Michael W. Mahoney. "[ME-Prune: Highly Compressed and Robust Neural Networks via Matrix Entropy Based Channel Pruning](#)" (in progress).

COURSES

- (In Progress) Computer Vision and Computational Photography, Experimental Design for Machine Learning on Multimedia Data, Fourier Analysis/Wavelets/Signal Processing
- Machine Learning (CS189), Deep Neural Networks (CS182)
- Algorithms and Intractable Problems (CS170), Data Structures (CS61B)
- Probability Theory and Random Processes (EECS126), Information Theory and Coding (EE229A), Electrical Engineering (EECS16AB)
- Operating Systems (CS162), Computer Security (CS161), Computer Architecture
- Real Analysis (Math 104), Complex Analysis, Linear Algebra, Discrete Mathematics, Abstract Algebra

SKILLS

Programming languages: Java, Python (PyTorch), C, Go, Scheme, SQL

Foreign languages: Mandarin (Bilingual), French (Advanced)
