

ELICIA YE

UC Berkeley M.S., EECS

B.A., Computer Science and Mathematics

@ eliciaye@berkeley.edu

+1(408)966-3060

SF Bay Area

EXPERIENCE

BASICS/RISELab Research

Department of EECS, UC Berkeley

📅 Sep 2020 – present

📍 Berkeley, CA

- M.S. Advisor Professor Kannan Ramchandran, with mentorship of Yaoqing Yang.
- Develop and optimize neural network learning algorithms in deep learning using statistical and machine learning methodologies.

Machine Learning Intern

Facebook, Inc.

📅 May – August 2021

📍 Menlo Park, CA

- Designed and completed independent machine learning project, built infrastructure for model research and development.
- Reached team H2 goals by improving ad delivery efficiency and efficacy in production for Signals Intelligence.

CS170 Undergraduate Student Instructor

Department of EECS, UC Berkeley

📅 Jan 2020 – May 2022

📍 Berkeley, CA

- Instructed weekly sections and host office hours to reinforce core concepts taught in upper vision CS theory (e.g. dynamic/linear programming, greedy, FFT, duality, NP-completeness, etc.).
- Head Pedagogy: developed enrichment initiatives, facilitated mentorship and community building among staff and students

Software Development Engineer Intern

Amazon.com, Inc.

📅 May – August 2020

📍 Seattle, WA

- Decreased data unavailability by 50 percent for forecasting in production.
- Deployed and integrated AWS infrastructure (S3, DynamoDB, CloudFront, Redshift) to efficiently configure data and parallelize forecasting tasks.

Human-Computer Interaction/NLP Research

Professor Marti Hearst and John Canny, Philippe Laban

📅 Jan – June 2021

📍 Berkeley, CA

- Prototyped an interactive podcast interface (supports user Q/A) that automates news summary generation by applying NLP methods to a dataset of 7M+ news articles.

CS61B Course Coordinator

Computer Science Mentor

📅 Jan 2019 – May 2021

📍 Berkeley, CA

- Built infrastructure to teach and mentor up to 2000 students per semester in EECS courses. Integrated department-approved content and pedagogical programs.

EDUCATION

University of California, Berkeley

EECS, M.S.

📅 Expected May 2023

Computer Science, Math, French, B.A.

📅 May 2022, High Distinction in General Scholarship

- Cumulative GPA: **3.94/4.00**, CS GPA: 3.95
- **Upsilon Pi Epsilon** (CS honor society)

HONORS

- **EECS Honors Program**
- The Leadership Award (**Cal Alumni Assoc.**)

PUBLICATIONS

- E. Ye. "**Greedy Ordering of Layer Weight Matrices in Transformers Improves Translation**". 2023. M.S. Thesis.
- P. Laban, E. Ye, J. Canny, M. Hearst. "**NewsPod: Automatic and Interactive News Podcasts**". 2022. Accepted at ACM Conference on Intelligent User Interfaces (IUI).
- A. Zhao, Y. Yang, X. Yue, Z. Liu, E. Ye, M. Mahoney, K. Ramchandran, J. Gonzalez, K. Keutzer. "**AugPrune: Robust Network Pruning via Augmented Data**". Submitted to International Conference on Computer Vision (ICCV).

SKILLS

Programming languages: Java, Python

(PyTorch), C/C++, Go, Scheme, SQL

Foreign languages: Mandarin (Bilingual),

French (Advanced)

COURSES

- Probability Theory and Random Processes, Information Theory and Coding, Boolean Functions
- Machine Learning, Deep Neural Networks
- Algorithms and Intractable Problems
- Real Analysis, Complex Analysis, Linear Algebra, Discrete Math, Abstract Algebra, Fourier Analysis
- Operating Systems, Computer Security
